Professional Summary

I am Salesforce DevOps Engineer with hands-on experience in release management, CI/CD automation, and Salesforce environment governance. Certified Salesforce Platform Developer I, Administrator, AI Associate, Agentforce Specialist, with multiple Gearset and Copado DevOps certifications. Proven in delivering stable, low-risk Salesforce releases using Git-based version control, automated deployments, and Agile release practices.

Education

Loreto Sec Boarding School, SLC   2016 – 2017
- GPA: 3.6/4.0

PT.DeenDayal Upadhya Memorial college, +2   2017 – 2018
- percentage: 63.14)

C.V Raman Global University , B-tech in Computer Science   2019 – 2023
- CGPA: 9.03/10.00

Experience

Salesforce Release Engineer, Cognizant – Bengaluru, KA   Sep 2023 – Present
- Led Agile delivery processes by managing and tracking user stories, ensuring on-time sprint completion and eliminating delivery bottlenecks.
- Owned full sandbox life-cycle management, optimizing development environments and reducing setup time for teams.
- Developed scalable CI/CD automation pipelines via Gearset, increasing deployment speed and reducing manual effort.
- Executed complex Salesforce deployments using Copado, Gearset, and GitHub, achieving a high deployment success rate and stable production releases.
- Coordinated end-to-end release readiness activities, including deployment planning, impact assessment, validation, and stakeholder communication..
- Managed weekly and bi-weekly deployment cycles, ensuring smooth and timely releases across multiple Salesforce environments (DEV → SIT → UAT → Pre-Prod → Prod).
- Improved release processes through automation and proactive risk management, achieving consistent deployment success.
- Configured and maintained Salesforce custom objects, fields, validation rules, flows, and permission sets to support evolving business requirements.
- Executed data imports, exports, and large-scale data clean-up activities using Data Loader, ensuring data quality and integrity across environments.
- Conducted detailed impact analysis and designed rollback strategies for high-risk releases to minimize production disruption.

Software Engineer Intern, Byteridge – HYD   Jan 2023 – Mar 2023
- Collaborated with a dynamic and skilled team to develop the Friendly Faces app using Flutter and Dart.
- Gained hands-on experience in mobile app development, including UI/UX design, state management, and API integration.
- Enhanced problem-solving and teamwork skills while effectively learning and implementing new technologies.
